Age Range: 3 and up

Grade Level: Preschool and up

Customer Reviews

Chunky books are great for little hands, and all children love Richard Scarry books. I first heard about them when my cousins were little, and started buying them when our first child was born. She liked them, as did our second, third, and fourth child. Our youngest is 15 months old, and Richard Scarry's Lowly Worm Book is one of his favorites. He loves to turn the pages, look at the pictures, and ask "What that?". Each page has a simple picture, making it easy to give a one-word answer. Each picture has captions on each element, so that as the child gets older you are prompted to give more detailed answers to the "What that?" question. Buy the Richard Scarry chunky books for your toddler, and keep on buying Richard Scarry books and videos as he/she grows. They are always fun to look at for both children and adults!

Trilby. Feather. Bow tie. Skinny jeans. Apple products. Yeah, I'm pretty sure Lowly Worm was the original hipster.

Our 18 month old is obsessed, and walks around the house chanting "Lowly, Lowly" and dragging the book from room to room. It's great for reinforcing first words (tree, shoe, door) in a fun, colorful way and introducing new ones. We also have the cars and trucks board books, which we love even more.

A very small book for very small hands. It introduces your child to some simple words and of course, the pictures are the cutest. Our daughter loved this from the moment we got it for her (before her first birthday). She is three now and we need to replace this book. It's been taped back together many times, but the love good to be too much for it.

"Richard Scarry's Lowly Worm Book" is a Random House Chunky Book. It features a series of pictures with one-word labels on the items depicted: chimney, roof, house, tree, leaf, etc. The emphasis in general is on common household objects; this book could be a good educational tool for beginning readers. The book's title character is seen at least once on every colorful two-page spread. With his innocent smile, green hat, and single red sneaker, the Worm is a charming, likeable character with lots of visual appeal.

My family loves Lowly. I have such happy memories of watching my first niece pick out Lowly from each picture when she was about 2 years old. She adores him. This is such a nice book for a toddler to have. It is easy for them to carry around and to enjoy. Richard Scarry did a great job when he created Lowly. We still have fun locating Lowly on the pages of his books. I think every little person deserves to have their own Lowly book.

This household loves anything Richard Scarry. My kids grew up on him and now my grandkids. My son's first words were "wowly worm"

This is a small book that fits in the palm of your hand...great for the diaper bag! We always love lowly worm and Richard Scarry!
