Customer Reviews

There is NO story, only a description of each pup, Ryder & the lookout. I wish we could have seen the book before buying it. My 2 yr old Paw Patrol obsessed son is so disappointed. We bought the Pups to the Rescue book and the words are the same as this book but at least that book has stickers included... and it was half the price of this one! Don't buy this book, buy the other one with stickers or The Itty-Bitty Kitty Rescue book (my son LOVES it and we are getting ready to read it now)!!!

If you own the book "Pups to the Rescue" do not buy this book. My 3 year old son was so disappointed when we found out this is almost the exact same story with just a few words changed here and there. I'm going to return this book if I can.

This book is oversized which I like. It's a better fit for 3 year old hands. The story is ridiculously simple, and just a basic introduction to the Paw Patrol team. My son loves the show, and I try to encourage more reading than TV time. I thought the book would be interesting to him, but not so much. Read it on Christmas Day, and haven't picked it up since.

The big book of Paw Patrol is a 12 page e-book for kids all about the show PAW Patrol. It starts out giving you a brief description on what the PAW Patrol are and how Ryder calls the pups to the lookout tower. It also explains the kids what Adventure Bay is and that there are six pups with special jobs and talents that all have super cool vehicles in tools. Next the book covers each one of the six original Paw Patrol pups and what they do. It describes why each Paw Patrol Pup is special and what their important tasks are and tells you what their vehicles are and what their special pup packs contain. The first pup it covers is Chase and tells you his favorite phrase is Chase on the case and then explains he's a German shepherd and what he does as the PAW Patrol's police pup. Next pup is Marshall the fire dog dalmatian and his favorite phrase I'm all fired up. Next it covers Rebel the construction pup bulldog, whose favorite phrase is "let's dig it." Skye is the next first original girl pup and her favorite phrase is "this pup's gotta to fly." Then "Rocky" to the rescue is the recycling pup. The last puppet covers is Zuma which is the team's fun-loving Labrador water rescue dog. Then it covers Ryder which is the 10-year old boy who runs Lookout power in trained each one of the pups himself. The next page is about the lookout tower followed by the PAW Patrol badges. The only pup that's not in this book is Everest, she is the second girl pup that was added during the second season, Apparently after this book was written. All in all my two-year-old and four-year-old both love the show and love this book. I think it's well worth the money that I spent and my four-year-old has read it over and over and learned everything he can learn about each pup.

Bogus content. Big Book of Paw Patrol doesn't make me think it is going to be just a 'meet the characters' intro without a single adventure or story. If I saw this in the store, I'd have flipped through and known better but it is misleading, the description online. Buy one of the other soft covers on here or small golden books that have actual series episodes or stories. This is like zero content and if your kids KNOW the characters they don't need it.

My son wanted this so I got it for him. HE loves it - but it is just basically a list of the characters and what they do which I'm not impressed about. It's also not that big of a book being it's titled "The Big book of paw patrol"

Bit dissappointing, i thought there would be a story or something interesting, but its just introduction on everyone.i would have given 5stars

A great book, introduces all the dogs, Ryder & the lookout. No storyline it's just a introduction book. My little one loves it though. His only complaint is there are no trucks or the hovercraft pictures in it.The book is taller then the normal golden books. It's a typical hardcover book size. Perfect for him to hold & flip through.
