Customer Reviews

My husband is a German teacher and bought this to use in class. He had to print words and paste them in the book to correct 25 errors. The book was obviously written by someone who knows very little German (the title page lists the translator as "translations.com").

This is very basic. If you don't know any German it's good and it does give you pronunciation so that is helpful but if you speak any basic German this won't help you increase your German knowledge

I found several errors just glancing through this book. The errors were in both grammar and poor translation of words. While there are good things about the book, overall I recommend choosing something different!
