## Customer Reviews

I truly found some very nice jokes inside. If you are looking for jokes that will make you smile, this is the right choice. Of course, I would not expect this book will make someone cry out of laughing for an hour or so, but I've spent some good time with the book.p.s. Someone wrote the book is offensive to kids. It clearly states "This book isn't for kids!"

I love reading joke books and I think it's a good thing to enjoy and learn too. When you read in a passive manner, you learn in a passive manner and that is a very outdated method. People who take part in active learning as opposed to passive learning achieve better results. We always ask questions, be very critical of what you are reading and be amazed as your brain starts to become more active, linking the new information to the old information.

Spend some time to sit back, relax and laugh. Definitely had my children laughing! There are jokes for all tastes, the classic style that always make you laugh and others which I had never read before. Most of the lines and jokes in this book are very new.. I recommend this book to have a good time.

I had a great laugh reading these jokes. Most of the times these books are for kids, but believe me this isn't. There are many great jokes that I already started telling my friends and they are bursting in laugh

Very cool collection! This book is suitable for both adults and children. I laughed out loud when I read. We have now the whole family to maintain a good mood every day, thanks to this book. Thanks to the author.

I've always loved reading books that either had a great story or made me laugh. This book definitely fit to category number 2. Even my husband who seldom reads found the green jokes section of the book hilarious!

This book is a snickering gas for you. Snickering is an incredible thing for your heart and your psyche. Snickering resemble the drug for your heart. This book will help you to snicker as hard as you need. With an immense gathering of pics, jokes, comes up short and so forth this book will be the best book which will make you chuckle like you've never snickered. I feel that this book is something that each guardian ought to have and this is the reason I rate it with 5 stars and emphatically suggest it!Thanks

A funny book for past time while you waiting the time past by. I've read the all pages here at it make me laugh, really make me happy. I start to share this to my friends and relatives so that they can experience what I experience. Highly recommended!
