# Stir It Up: Lessons In Community Organizing And Advocacy (The Chardon Press Series)

## Synopsis

Stir It Up--written by renowned activist and trainer Rinku Sen--identifies the key priorities and strategies that can help advance the mission of any social change group. This groundbreaking book addresses the unique challenges and opportunities the new global economy poses for activist groups and provides concrete guidance for community organizations of all orientations. Sponsored by the Ms. Foundation, Stir It Up draws on lessons learned from Sen's groundbreaking work with women's groups organizing for economic justice. Throughout the book, Sen walks readers through the steps of building and mobilizing a constituency and implementing key strategies that can effect social change. The book is filled with illustrative case studies that highlight best organizing practices in action and each chapter contains tools that can help groups tailor Sen's model for their own organizational needs. Stir It Up will show your organization how to: Design and conduct actions that further campaign goals Develop effective leaders Build strong alliances and networks Generate and use solid research Design an effective media strategy Put in place a plan for internal political education and consciousness-raising With the information, tools, and suggestions outlined in this book your organization can use your "good idea" to change the world.

## Customer Reviews

Given the critical importance of social change today, it is stunning that most of the recent books on community organizing focus on personal reflections and sociological analyses instead of giving us

the whole package. In "Stir It Up," Rinku Sen manages to squeeze a powerful vision, racial and social justice analysis, profiles of organizing groups, a detailed contact list of organizations and networks, and tools for creating real change into two hundred pages. This is a watershed book for the social justice organizing movement, illuminating the principles and practices that ground multi-racial, social justice, racial justice, and direct action organizations that have developed in the past twenty-five years. If you are serious about systemic change that addresses the root causes of racism, classism, sexism, homophobia, and xenophobia, then this book offers you a framework and process for creating real change. Sections of the book go through the identification and selection of issues using a social justice lens, working with emerging constituencies, running campaigns and taking action, research, and, most critically, framing our struggles and organizations to address systemic oppression. Readers will get a clear sense of the unrelenting human movement toward freedom through profiles of extraordinary groups that continue to win both concrete change and a reordering of power in our society. Kudos to Rinku Sen for taking the time to describe the growth, development, and work of the racial and social justice movement to the world!

Passion & pragmatism don't always come together in community organizing -- kudos to Ms. Sen for showing us how to balance the two! I'm so glad that someone has finally written a comprehensive book on the strategy & practice of organizing...considering where our nation is headed, this comes not a moment too soon.

I really found this book both inspiring and realistic. Sen acknowledges the challenges (especially in today's political climate) but lays out what it takes to get the job done. Her practical, real-world guidance walks you through organizing your local community to help achieve change and get results on the issues you care about.

This book took a long time to arrive. I'm thankful that I got it.
