As an "80's baby" who grew up on Super Mario on the old Nintendo Entertainment System (NES), this book was so nostalgic for me. I remember using the old controller and playing until my thumbs hurt, fighting against Bowser and all the other monsters in the game. I know this book isn't really for

adults, but I loved it! I thought it was really creative and unique, and I understood all of the jokes in ways that no child of today, or even of 10-15 years ago would, and can't wait to break out some of those jokes to my other gamer friends in my age demographic. Back before technology was so great that you felt like you were "inside" the game... there was Super Mario... the original one... where you had to blow into the cartridge to get the game to play. Ahhh.... the good ole days!

Super mario was my favorite game in my childhood. I love to play this game and I was the master in this. I got this book because of my interest in this game , This book is very interesting . A lot of jokes that will force you to laugh. I relly like this book. One of the most interestig part of this book is quiz about super mario. All the questions are interesting.I would like to recommend this book to others.

The intro was interesting. Most appears to be recycled memes. Takes about 4 minutes to read. Jokes are half funny.

Dislike like now..... This sucked and my final words are you did a bad job guys boo boo boo BOO
