Customer Reviews

Lishansky calls his approach the "Ultimate Sales Revolution." When you parse through the label, his book focuses on interacting with prospective clients by helping them clarify their biggest challenges and goals, and focusing sales efforts on a solution to solve those problems and create those outcomes. Strong relationships are forged as those problems are tackled and the Company and the client "results" are helped in a meaningful way. This approach seems highly applicable to professional services and technology products - probably other sectors too.

Thankfully, I can FINALLY love sales! Steve Lishansky's re-frame of the sales process is a concept heart based entrepreneurs will intuitively understand because it outlines the process we've all be longing for: How to move closer to creating an indispensable partnership with our clients that feels aligned with the core values of clarity and connection without resorting to overused manipulation tactics that feel so foreign and disconnected from our true purpose. The process is easy to understand and the book clearly outlines the value-based partnership model, including a starter on the types of open ended questions necessary to master this new way of relating. The Ultimate Sales Revolution is definitely a book I to which I will be referring and one I'll be recommending often.

The strategies in this book are the rocket fuel to your next level of high value relationship success! Steve Lishansky is a true genius and master of creating successful sales relationships. His program in his book teaches you how to connect at the highest neurological levels of values and what's most important to your clients. This may be one of the most important business books you will ever read, and one you'll refer to frequently until you've mastered the skills. I believe the

strategies in this book will transform the field and thought leadership in sales forever. I've been fortunate to develop high value relationships to build a Global CEO Mastermind and Network with industry leaders, and in raising over five billion dollars for my former investment banking clients. This sits on my desk so I can refer to it often. This program has profoundly impacted how I think about and work with clients. I'm grateful to for these insights, and excited for others to have and use them!.

Fortunately, I made a mistake and bought two books instead of one. I say "fortunately" because now I have one to give away to a cherished client!!! Steve not only provides the WHY of a need for change, but he provides the HOW. What I love best is that his focus is on being the trusted partner of your client organizations because you have their best interest at heart. His focus is truly on how you can be the one who has a bigger picture view of your clients entire organization - the goals and mission - and helps you with how to help them get there. Who won't love you and trust you when you deliver on what you can do to help your client organization soar. Don't just buy one book - buy several and give them away to your clients. They'll thank you for it! And, oh, by the way, put into practice what you'll learn in Steve's book! You'll be so glad you did.

Steve Lishansky provides the perfect demonstration of how, and why, the world of sales really needs a revolution " and he's the best person I know to lead that revolution. This book is a true treasure trove of strategy and information, supported by an undeniable passion and heart for business and building relationships. His approach is not only straightforward and manageable " it's a true recipe for success. His methods are proven and applicable to any level, and market, of sales you find yourself in " from entry level to executive. The Ultimate Sales Revolution is exactly what the world of sales needs today.

If you've had an aversion to selling this is the book that will change everything! Steve shows how selling is building relationships that serve the customer first and foremost. He shows you how natural and easy it is to create powerful and meaningful relationships that result in profound trust and long-term business.

As a consultant I read and recommend a lot of books. This is hands down the best sales book I have ever read. Not only does the author beautifully reframe the entire model for creating sales by really defining Value-Based relationships in a deep way, but the book gives you a step by step

approach to doing that including specific questions to ask. The process spins the entire sales conversation into a facilitative process that offers real value to a customer before they have even purchased your product or service. The beauty of that is you establish your value with each client as what the author calls "being an indispensable partner." This dissipates all of the pressure we usually have to "close a deal" or to get someone to do something. Instead you generate a valuable conversation that allows you to offer something to a client that they actually need. Brilliant.

Inside this powerful book is the key to turning around a flat or unpredictably profitable business. In our work helping CEOs make their companies more profitable so the company can then become saleable, the underlying problem we see and resolve is that few business leaders know how to stand in the shoes of their customers. When you can't uncover their issues and translate them into solutions that works for them, you lose their attention. Steve shows you how to shift your mindset so you and your team can appear to be mind reading ninjas, dazzling prospects with the keys to unlocking their potential. If you're tired of hiring and firing sales people, beating on doors that don't open, and shouldering the stress about your financial future, read this book this weekend. It will save your life, improve your success, and enhance your company's reputation.
