Ever since I made my first dollar passively I've been addicted to the whole idea of passive income. This book actually told me information that I needed to know such as how to build a passive income and the obstacles that would get in my way when trying to build this passive income. being not everyone has the right idea on how it can be done. This book has changed that for me. It has introduced me to the very concept of passive income and has given me more than my fair share of ideas on how to be able to start!

Love this book I have been trying to find ways of making extra money with the little time I have during my off days. I always wanted to know how people make money blogging. I have a few ideas that I would like to do with blogging thanks to this book I now know how to take steps to becoming a blogger. Can't wait to start.

Such an awesome and comprehensive guide to passive income. This basically describes the 20% of passive income that will give you 80% of the results. It covers several different ways to generate passive income in detail and gives useful advice and inputs on all of them. This is a book I would recommend for everyone who wishes to create passive income sources.

I started reading up on passive income streams by chance from browsing the internet, and it really

got me excited about the possibilities. However, although the internet had some great info, it was all over the place and I felt like I was finding a needle in a haystack. So I decided to get a book on it to make it easier to understand. This book was at a great price and I really liked how it was structured. It was like having a mentor in a book where a lot of my questions were answered, and I appreciated that it took you through only a few forms of passive income so it's not overwhelming.

Well, I think everyone of us wanted to have passive income. The book is a terrific resource for beginners as well as people who have been at this for a while. This book is an ideas generator for making more money! David Nelson is a great author, with a great book title. Highly Recommended
