# Magic Of Impromptu Speaking: Create A Speech That Will Be Remembered For Years In Under 30 Seconds

Synopsis

Magic of Impromptu Speaking is a comprehensive, step-by-step system for creating highly effective speeches in under 30 seconds. It is based on research of the most powerful techniques used by winners of impromptu speaking contests, politicians, actors and successful presenters. The book is entertaining to read, has plenty of examples and covers the most effective tools not only from the world of impromptu speaking but also from acting, stand-up comedy, applied psychology and creative thinking. Once you master the system, you will grow immensely as an impromptu public speaker, become a better storyteller in a circle of friends and be more creative in everyday life. Your audience members will think that what you do on stage after such short preparation is pure magic and will recall some of your speeches many years later.

Customer Reviews

Magic of Impromptu Speaking presents aspiring speakers with an excellent system of improving one's own natural speech as well as one's ability to interact with others, present dynamic and intriguing points of view, and command attention and respect by aweing audiences with memorable impromptu speeches, decorated with personal experience, humorous storytelling, and conflict

resolution.As a veteran of impromptu speaking, myself, having competed in and won several impromptu-speaking competitions through academic Speech & Debate tournaments and the like, I must say that I found Andrii Sedniev's guide to impromptu speaking both original as well as delightfully thorough. Not only are all of the tips, advice, and step-by-step instructions meticulously described, but each is also paired with a variety of helpful examples and suggestions. This truly works wonders for advice guides and manuals, because without helpful suggestions and examples from actual experts, rules, tips, and advice fail to become anything more than general knowledge, open to imagination, and while that may work for some, I prefer specifics. This guide absolutely delivers.One of the most comforting, as well as compelling, bits of knowledge shared in this book is the fact that the "best improvisation isn't improvisation." Sedniev explains to readers that much of the magic behind impromptu speaking is simple preparedness, including practicing speeches and answers that incorporate a variety of different possibilities ahead of time so as to cover one's bases when dealing with an actual, interactive audience's questions.I also greatly enjoyed the incorporation of the PEEP approach to impromptu speaking, which stands for "Point, Explanation, Example, and Point.
