Customer Reviews

I couldn't help but add this book to our complete collection of Magic Tree House Shelf. Thank you to Mary Pope Osborne her books are always in high demand at our school library. This series is the perfect transition from picture books to chapters. This series mixes great characters with geography, history, and mystery. If you have never read a Magic Tree House Book you are cheating yourself of a great adventure. I recommend starting at book one and follow all the way through.

What a nice series for the early and intermediate reader. We have several of the books and will buy more.

This was a gift for my grandson who loves the Magic Treehouse series! He treasures each and

every one.

My 6 and 4 year-olds enjoy this series. They're entertaining and somewhat educational. I borrowed this through our library's digital lending system. I'm not sure I would actually buy these books, but they're great to borrow.
